

Ivo Valkenburg

"I look forward to a world where, whenever people see someone living a prosperous, fulfilled, happy life, the first question they will ask is: Who is your financial advisor?"

Ivo Valkenburg (Netherlands, 1966) is a highly versatile person. He is not easy to pigeonhole. Above all, he is an inspired man with a vision on money and finance as a tool for positive change in society. His enthusiasm is awakening the inner voice and beauty of people and organizations. He has been a spiritual knight in the world of financial services for more than 30 years. He started as a financial planner and retirement consultant (15 years founder and owner of a Dutch broker with 9 employees, and sold his business to ING Bank), created a knowledge center for financial planners, still running under the name Moneyview Support), later he became active as a professional speaker, trainer ('total intelligence in financial services' IQ + EQ + SQ) and business consultant who specialize in issues of personal, organizational and community transformation. Above all he is a man with a mission. 'If there is one thing that money and matter can contribute to, it is to the creation of Heaven on Earth'. It's his dream to see all living beings on Planet Earth back in their original state of being. Freed from illusion and lack of freedom. Restored in connection with themselves and everything.

In the Netherlands, Ivo is regularly quoted and interviewed for radio, TV and other media. He is the author of two Dutch written books (1) Spirit in Finance and (2) Pure Life – a plea for love as legal tender. His latest book will soon (February 2017) be published in English as well. It is about how more and more people dare to trust the power of love in all aspects of life, without judgement or expectations. He created an English language website around this book: www.lovmadevisible.eu.

Specialities: Author, Keynote Speaker, Business Coach and Advisor to Leaders in the Business World. Heart People (Emotional Intelligence), Heart Economics (genuine wealth and happiness), Financial Planning.

(to be published in February 2017)
